PRIMO GLITTER ADVICE

MATCHY MATCHY:

PAT MCGRATH
“Choose a shade of loose fine glitter that matches your shadow & brush lightly onto the centre of your lids for subtle sparkle.”

EASY DOES IT:

DIANE KENDAL
“Keep glitter confined to the centre of the eye, and use a matte shade on the rest of the lid as a sort of boundary so it doesn't take over the eye—you just get a hint of it when the eyes open.”

GETTING RID OF IT:

JAMES BOEHMER
“For glittery eyeshadow, first use tape to gently remove chunky glitter rather than a makeup remover that will just smear the glitter around.”
